GlucoLyze

Available in 120 Count Vegetarian Capsules

GlucoLyze is a vegetarian dietary supplement to support proper glucose metabolism, cravings and weight management. Formulated with nine researched and known nutritional factors, **GlucoLyze** is useful for
- Maintaining healthy glucose levels
- Reducing cravings and maintaining weight
- Energy support
- Aiding glucose transport and utilization by cells
- Reducing free radical damage associated with unhealthy glucose levels

About the Ingredients

Chromium (as Chromium Nicotinate Glycinate Chelate) (TRAACS™) is a niacin-bound chromium complex that has been identified as being the active constituent in Glucose Tolerance Factor, the factor responsible for attaching insulin to cell membrane receptor sites where insulin functions. Individuals who have a deficiency of biologically active chromium may suffer from insulin resistance and higher than normal insulin levels.

Cassia (Cinnamon) Bark Extract has been proven in a study published in Diabetes Care 2003 to help reduce blood sugar levels at 1 gram per day. Cinnamon improved insulin sensitivity and reduced blood sugar in those with both Type I and Type II diabetes.

Gymnema Leaf Extract contains phytonutrients that support the normalization of blood glucose levels and the production of insulin to within normal ranges.

R-Alpha Lipoic Acid (Natural Form) is a potent antioxidant that prevents free radical damage and protects other antioxidants such as Vitamins E and C, and Glutathione. It has been shown to support the inhibition of glycation. Glycation occurs when proteins or lipids in the body react with too much glucose to cause oxidative damage. Over time, excessive glycation damage can accelerate aging, promote kidney dysfunction, nerve damage, and impaired vision.

L-Taurine helps mobilize fat, reduce sugar cravings and assist the release of insulin.

Vitamin B6, B12 and Biotin are all necessary to help process and utilize insulin effectively.

Vanadyl Sulfate (TRAACS™) is a trace mineral that works like insulin to increase the amount of glucose and amino acids driven into the muscle. Vanadyl Sulfate is a compound of Vanadium, Sulfur, and Oxygen. According to a study performed by the University of Texas Health Science Center, San Antonio, Texas in 2001, Vanadyl Sulfate was shown to reduce hyperglycemia, and to improve liver and muscle insulin sensitivity.

Green Tea Leaf Extract, EGCG, is suggested in studies of both cell and animal-based models, to mimic and/or augment the beneficial metabolic, vascular, and anti-inflammatory actions of insulin.

SUPPLEMENT FACTS

Available Bottle Size: 120
Serving Size 2 Vegetarian Capsules
Servings Per Container 60

Amount Per Serving	
Vitamin B6 (as Pyridoxal-5-Phosphate)	4.5 mg
Vitamin B12 (as Methylcobalamin)	75 mcg
Biotin	1,000 mcg
Chromium (as Chromium Nicotinate Glycinate Chelate)(TRAACS™)	300 mcg
Cassia (Cinnamon) Bark Extract	500 mg
Gymnema Leaf Extract	200 mg
R-Alpha Lipoic Acid	150 mg
L-Taurine	150 mg
Green Tea Leaf Extract	72 mg
Vanadium (as Vanadyl Sulfate, Vanadium Nicotinate Glycinate Chelate) (TRAACS™)	2 mg

Other Ingredients: Hypromellose (Capsule), Dicalcium Phosphate, Rice Flour, Magnesium Stearate.

Suggested Use: As a dietary supplement, take 2 vegetarian capsules with food, twice per day, or as directed by your healthcare practitioner.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.
