# LivClear II

## Available in 90 Count Vegetarian Capsules

**A Dietary Supplement to Support Detoxification Functions***

**LivClear*II** combines various minerals, herbs, antioxidants, glutathione precursors, amino acids, and DMG known to support bioavailability and liver health.*

**LivClear*II is recommended for:**

- People searching for support for normal toxin cleansing and individuals on a weight-loss program*
- People exposed to chemical solvents (painters, dry cleaners, construction workers, printers, office workers, auto mechanics, manicurists, and beauticians)
- People who experience continuing fatigue*
- People undergoing sauna therapy and people with chemical sensitivities*

**LivClear*II supports normal detoxification in the following ways:**

- Providing advanced, balanced support for multiple phases of detoxification*
- Supporting kidney, liver, and colon health and function*
- Supporting the detoxification of solvents, metabolic wastes, micro-organisms, environmental toxins and drugs*

### PHASES OF DETOXIFICATION

**Phase I (neutralize)** involves a group of enzymes, known as the cytochrome P450 family, which are all embedded in healthy cell membranes of liver cells. When cytochrome P450 enzymes metabolize a toxin, it chemically transforms it to a less toxic form making it a water soluble substance ready for Phase II. During Phase I many free radicals are generated making antioxidants a critical component to a well rounded program.

**Phase II (conjugate)** involves a process called conjugation. Conjugation may be defined as the addition of coming together of compounds in order to neutralize toxins, making them more easily excreted through the urine or bile. The major conjugation reactions include glucuronidation, amino acid conjugation, sulfation, glutathione conjugation, acetylation and methylation.*

**Phase III (eliminate)** is when the toxins actually exit the body. Colon health, digestion and overall intestinal wellbeing are intricately involved in the health of the detoxification process. The bacillus coagulans used in this formula are a vegetarian, dairy-free source of probiotics, providing **five billion colony-forming units** that support intestinal wellness and colon health to allow for a healthy elimination process.* **Burdock** is a source of inulin and mucilage offering a soothing effect on the GI tract.* As a prebiotic and fiber, Inulin supports the growth of friendly and healthy intestinal bacteria which supports good colon health and microbial balance in the gut during and following a detoxification program.*

**Urinary Tract Support** is also covered in this formula as it too plays a role in the elimination process.* **Uva Ursi Leaf Extract** is most commonly known for its kidney supportive cleansing properties.* Stinging Nettle Leaf Extract is an herb that supports removal of metabolic waste for easy excretion through the kidneys.*

**Ingredients of interest include:**

- LeucoSelect® Phytosome® (Grape Seed Extract) is a proprietary technology consisting of low molecular weight grape seed extract in a highly-bioavailable complex.* Multiple clinical trials have assessed Leucoselect's® supportive properties.*
- Siliphos® Silybin Phystosome® is a patented, highly bioavailable version of milk thistle's active constituent, silymarin.* Siliphos® is so named because it is a combination of silybin and the phospholipid phosphatidylcholine, rendering it more bioavailable than regular silybin.*
- CurcuWIN® is an important liver health antioxidant.* It also supports bile production, thereby contributing to the elimination process.* The patented complex included in our product includes three curcuminoids: Curcumin, Demethoxycurcumin and Bisdemethoxycurcumin.
- Chlorella-Cracked Cell Powder is included in our formula because of its affinity for binding with heavy metals and toxins. Specifically, chlorella binds with mercury, lead and cadmium, making it one of the most popular detox-supportive supplements.* We use only the cracked cell type, as nutrients will be available through the hard, cellulose wall only in this manner.

## SUPPLEMENT FACTS

**Serving Size:** 6 Capsules
**Servings Per Container:** 15

| **Amount Per Serving** | |
|---|---|
| Magnesium (as Mg Citrate) | 100 mg |
| Selenium (as Selenomethionine) | 60 mcg |
| Chlorella-Cracked Cell Powder | 1,000 mg |
| Bacillus coagulans | 5 billion CFU |
| N.N-Dimethylglycine HCl (DMG) | 500 mg |
| L-Glycine | 300 mg |
| L-Glutamine | 300 mg |
| L-Taurine | 300 mg |
| CurcuWIN® Turmeric (Curcuma longa) Root Extract | 200 mg |
| yielding Curcuminoids | 40 mg |
| Siliphos® Silybin Phytosome™ (Silybum marianum Seed Extract / Phosphatidylcholine Complex) | 200 mg |
| Stinging Nettle (Urtica dioica) Leaf 4:1 Extract | 167 mg |
| Uva ursi Leaf 4:1 Extract | 167 mg |
| Burdock (Arctium Lappa) Root 4:1 Extract | 167 mg |
| LeucoSelect® Phytosome™ Extract (Grape Seed (Vitis vinifera) / Phosphatidylcholine Complex) | 100 mg |
| Alpha-Lipoic Acid | 60 mg |
| N-Acetyl-L-Cystein | 250 mg |

**Other Ingredients:** vegetable cellulose (capsule), vegetarian leucine, silicon dioxide.

**Contains:** Soy

**Suggested Use:** As a dietary supplement, take 6 capsules daily for up to 1 month, or take 3 capsules per day as maintenance. Detoxification programs are not intended for long-term use. Consult your healthcare practitioner if you plan to use the formula for more than 1 month at a time.

**Warning:** If pregnant, nursing, have gallstones or gallbladder disease, consult your healthcare practitioner before taking this product. Not for use in children.

Curcuwin SILIPHOS PHYTOSOME MORE BIOAVAILABLE

CurcuWIN® is a Patented product and registered trademark of Sabinsa Corporation. Siliphos® and Leucoselect® Phytosome™ are registered trademarks of Indena SpA, Milano.
