UT Cleanse

Available in 30 Powder Servings

UT Cleanse is a dietary supplement that supports the immune system and urinary tract.

UT Cleanse is designed to:

- Support healthy flora
- Preserve & replenish "friendly bacteria" (probiotics)
- Deliver a naturally occurring sugar with protective properties
- Not interfere with normal blood sugar regulation
- Go to work in your system quickly
- Support the immune system

ABOUT THE NUTRIENTS

D-Mannose is a glyconutrient and has many helpful health benefits. Glyconutrients are vital because they are essential saccharides that form crucial compounds within the body. Antibodies and digestive enzymes are glycoproteins (glyconutrients attached to proteins) that assist the body's cells in communicating with each other. D-mannose also removes "bad" bacteria by attachment and voiding. It's absorbed eight times more slowly than glucose and, when ingested, is not converted to glycogen or stored in the liver but rather goes directly into the blood stream from the kidneys to the bladder. Therefore it does not interfere with blood sugar regulation.

The bacterium displaced by Mannose is responsible for 80-90% of UTIs, whereas antibiotic treatment may cause an imbalance in the normal flora.

Cran-Max® Cranberry Concentrate Research shows that PACs, particularly A-type PACs, of which cranberries are a rich source, support urinary tract health. Anthocyanins, which are also found in cranberries and are natural anti-oxidants, support overall health. Cran-Max® provides a good source of PACs and anthocyanins.

Cran-Max® is a concentrated whole fruit cranberry extract. It is made from 100% of the cranberry. Cran-Max® contains no carriers, no solvents, no added sweeteners, and no flavorings or added colors. Cranberries provide a rich source of anthocyanins and proanthocyanidins (PACs) and are a better source of these than almost any other fruit. One 500 mg dose of Cran-Max® provides the same amount of anthocyanins as 7 glasses of cranberry juice cocktail, without all the sugar.

Cran-Max® is the only cranberry concentrate made using the patented Bio-Shield™ technology. Bio-Shield™ is designed to protect the anthocyanins and phenols from destruction by gastric acid in the stomach.

Dandelion Leaf (Taraxacum spp.) is a common plant found all over the world. Considered by many gardeners to be a nuisance, herbalists find dandelion to be a useful diuretic, bitter, and nutritive tonic. The leaves, root, and flower all have beneficial properties. Dandelion leaves are high in vitamin A and have moderate amounts of vitamin D, vitamin C, some B vitamins, iron, silicon, magnesium, zinc, and manganese. Dandelion may help to lower blood pressure and the leaf is said to be nourish the urinary tract.

Olive Leaf Powder works directly against unwanted materials without suppressing the immune system or damaging the body's beneficial flora. It has been used as an antimicrobial agent against many different viruses, bacteria, and fungi. Additionally, oleuropein is also a potent antioxidant, acting as a free radical scavenger.

Proprietary Shelf Stable Non-Dairy Probiotic Blend contains 6 Billion CFU/g of the following strains: Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium breve, Streptococcus thermophilus, Bifidobacterium longum.

SUPPLEMENT FACTS

Serving Size: 1 Scoop (3.66g)
Servings Per Container: 30

Amount Per Serving

Calories	15
Total Carbohydrate	1g
Dietary Fiber	1g
Iron	0.65mg
Inulin	1000 mg
D-Mannose	500 mg
Cran-Max® Cranberry Fruit and Seed Powder	500 mg
Dandelion Root Powder	200 mg
Olive Leaf Powder	100 mg
Proprietary Probiotic & Prebiotic Blend	100mg (6 Billion CFU)
Inulin, Lactobacillus acidophilus, Lactobacillus rhamnosus, Lactobacillus lactis, Bifidobacterium lactis, Bifidobacterium longum, Bifidobacterium bifidum, Streptococcus thermophilus.	
Uva Ursi Leaf Extract	50 mg

Other ingredients: Citric Acid, Natural Flavor, Silicon Dioxide, Rebaudioside A (From Stevia Leaf Extract).

Suggested Use: As a dietary supplement, mix one (3.66 g) scoop in water, one to three times daily, or as directed by your health care practitioner.

Warning: If you are pregnant or nursing, consult your health care practitioner before taking this product.
